

IED Visual Communication is the creative lab where one can learn about the instruments, the specific language and expressions, new techniques and the technology needed in order to develop a visual communications project.

## Visual Communication Experience

**Start date:** April 2012

**Duration:** 10 months - Full time

**Language:** English

**Price:** 12 000 €

The Master Course in Visual Communication Experience offers a large and deep overview of the subjects linked to the visual communication. Themes such as graphics, video, advertising, and the world of the new media (web, virtual and digital reality) will be dealt in a basic way so that students can be able, if necessary, to face a higher level training pathway.

Aimed at

The Master Course in Visual Communication Experience is addressed to Italian and foreign students with an education in different fields or in fields linked to the subject who want to further develop their skills.
